

hi-Call Leather is the essential accessory for those who love to surprise with the most innovative technology without giving up sophistication and elegance, even while talking on the phone! hi-Fun presents the evolution of hi-Call made with genuine leather. The Bluetooth talking glove turns into a real "must-have" accessory for this winter. Technology does not change, as well as functions: It pairs to your smartphone via Bluetooth, vibrates to alert you every time you have an incoming call and lets you talk through your fingers thanks to an integrated invisible earpiece and a microphone. Perfect for the most demanding in terms of style, essential to those who don't want to feel the cold and unique: just like the original!
